DETAILED ACTION

This communication is in response to Applicant's Arguments and Remarks filed 07 May 2007.

Status of Claims

Claims 1-40 are currently pending. Claims 1, 30, 39 and 40 are independent claims.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites the following limitations, which lack antecedent basis in the claim:

- "the sale date", part (C);
- "the initial basis", part (E);
- "the cost basis"; part (iii);
- "the shares held adjustment ratio associated with the latest event date",
part (iii).

There is insufficient antecedent basis for these limitations in the claim. Applicant is requested to amend all claims, which use these terms. Appropriate correction is required.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter:

the claims disclose a method, system and apparatus for determining a cost basis for a plurality of shares of a security; utilizing the capital events of distribution reinvestment, a spin-off event, a merger event and a split event, and a shares-held adjustment ratio for each of the event(s), which is not disclosed by the prior art.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
